The Violators of the Constitution.

The apologists of Governor Barstow and his "Rotten Raw" appointments resort to very peculiar logic to palliate his course. The Madison *Argus* and its next friend the Janesville *Standard* both, that because President Fillmore appointed Hewrmesy Marshall, then a Member of Congress, Commissioner to China, and our State Legislature a year ago under the administration of Gov. Farwell, elected one of its members, Mr. Haertel, Commissioner of Emigration, and because the Milwaukee *Sentinel* did not denounce the aforesaid appointments, therefore Gov. Barstow is fully justified in appointing Senators to offices which their votes helped to create, and the *Sentinel* is estopped from rebuking this outrageous and palpable infraction of our Fundamental Law. Now such logic may be entirely satisfactory to the prints which resort to it, but will hardly, we think, help the Governor, or pass current with the People. What if precedents for abuses and wrongdoing can be found, do they justify a repetition of offences? And what if the *Sentinel* did fail to speak out, in instant and utter condemnation of unconstitutional appointments, whensoever or by whomsoever made, does this consideration us from denouncing the iniquity now? We spice not.

The attempt to fasten upon Gov. Farwell the responsibility for the appointment of Mr. Haertel, as Emigrant Commissioner, is silly in the extreme. The Legislature first took away the appointing power from the Governor, and then proceeded to elect one of their own number to the office they had thus appropriated. We think that Mr. Haertel's appointment was in spirit and effect, at war with the Constitutional provision heretofore quoted; but it was not so flagrant a violation of that instrument, or so palpable a job, as the appointment of Senators Tuttle, McLane and Hunter to offices which they helped to create, and which were bestowed upon them in return, if not reward, for services rendered. No plea, or precedent; no subterfuge or sophistry, can justify or excuse that patent wrong. It stands out, in bold relief, the crowning outrage (thus far) of Bogus Democracy upon the Law and the Constitution of this State.

"Glaring Designs" on Cuba.—The Sheboygan *Journal*, noticing Senator Shidell's proposition to vest in the President discretionary power to suspend the Neutrality Laws, so as to give the Filibusters full swing, says:

"Senator S. supported his resolution in a significant and powerful speech—thoroughly exposing the glaring designs of England, France and Spain and showing their steady, stealthy and unscrupulous plottings in regard to Cuba, while all three have professed to be friendly. The movement is an important one, and betokens trouble."

Will the Sheboygan *Journal* tell us what is the nature and extent of the "glaring designs" and "unscrupulous plottings" of England, France and Spain, in regard to Cuba? The most we have heard of them is, that they talk of emancipating the slaves in that Island. If that be all, we submit that it does not become the United States to protest against it.

Milwaukee & Watertown R. R.

We learn that this Company has been pushing along its work quietly but so efficiently that little grading remains to be done in order to have the whole ready for the ties in a short time. Some 400 tons of iron has arrived, and there is now no obstacle in the way of opening the road through to Watertown by the 1st. of September, unless the absurd—obstinacy, shall we call it?—of some members of our common Council, shall stand in the way of allowing the contractors to realize a portion of the aid voted by the City long since. Within four months of its completion to Watertown, so well has the Company managed its affairs that it does *not* owe the contractors a dollar. This we have from the very best authority. We hope that the Common Council will reconsider its resolution, which we have given, and put it under the table.

An Important Reference.—The Committee on Foreign Affairs, to whom was referred Mr. Slidell's resolution to seize the Island of Cuba, consists of Messrs Mason, Cass, Douglas, Everett, Slidell, and Clayton. Douglas coincides with Slidell, and we think that Mason does too; but reports say the contrary. Gen. Cass is expected to be decidedly against this move of piracy.—*Wisconsin.*

The Washington *Union*, the organ of the "National Democracy," justifies and defends "this new form of piracy." Like the Nebraska iniquity, it is to be made an "Administration measure."

Bound to go Ahead.—The Stevens Point *Pinery* has the following article, which exhibits in a straight forward, unmistakable manner, the interest which the people of that rich section of our country—rich now, though its wealth has not begun to be developed—take in the progress of that one of our system of railroads which reaches forward towards them. That road will go through speedily, and confer untold advantages upon both country and city. The subscription is to the Milwaukee and Horicon Railroad:

"Away out here on the Wisconsin river, we feel its influence, and with ready hands to the wheel, our citizens are keeping it in motion.—Upwards of $70,000 have already been subscribed by our citizens. A. Warren Jr., of this place, has taken $20,000 in stock. This is the largest amount taken by any individual on the line.—Our more Eastern friends will find that Stevens' Point will always be at the *point*. Three hundred thousand dollars is but a small sum for us to raise."

Lucky.—The Janesville *Standard* intimates that nobody has yet appeared to take its offer of $1000 worth of M. & M. Railroad stock for the same amount of Valley stock. The inference is irresistible that none of its readers are so unlucky to own that amount of Valley road stock.

The Galena *Jeffersonian* of the 27th ult. says:—"Yesterday morning about 10 o'clock, the steward of the New St. Paul, lying alongside of the Nominee, had a dispute with a deck hand belonging to the latter, which ended in a threat of the deck hand to "wash his mouth." The steward ran up to the New St. Paul and came back with a revolver. By this time the man with whom he had disputed had gone about his business, and his place was supplied by another deck hand, who knew nothing of what had happened; he was sitting on the ground, quietly smoking his pipe. The steward asked if he was the d——d rascal who threatened to whip him, and getting such a reply as a deck hand would naturally make, blazed away at his victim with the pistol he held in his hand. The ball entered near the mouth, passed obliquely backward and lodged in the neck near the angle of the jaw.—His life is despaired of by his physician.

The name of the man shot is William Monton; he was a quiet peaceable fellow, who has been in the employ of some of the Upper River boats for years. His *murderer* is called Harden Marriatte. He is in jail.

LETTERS FROM THE COUNTRY.

Waupun, May 5th, 1854.

Messrs. Editors:—

"My Kingdom for a horse," was the exclamation of a crowned rascal of old. But the cry of a weary traveller in this direction, after riding all day at the tune of three miles an hour in one of Frink, Walker & Co.'s coaches, or mud wagons, is, "my money for a Railroad." Leaving Milwaukee at half-past seven A. M., we took the cars as far as the Forest House, where, shortly after our arrival, a single coach was driven up to the door, and we were told that that was the whole amount of rolling stock provided to take us to Watertown. This looked like rather a lean provision for the crowd of passengers, twenty in number, that eagerly pressed forward to secure seats. The motto seemed to be, "every one for himself and the D—l take the hindmost." Soon was heard the command from the Agent—"stand back and make room for the ladies"—at which all stand back, and the ladies, two in number, are stowed away on the back seat, when a general rush is again made for seats, and is again arrested in a measure by the Agent, who endeavors to seat the through passengers on the inside. Standing quietly by, watching the movement of things, and wondering whether all would be accommodated, or whether some would be left, and whether I should be one of the left or not, way was made for me to occupy the vacant back seat with the two ladies, which upon being ensconsed in, was found to be full narrow enough for three such broad-shouldered persons to occupy. After some growling and snarling, all were stowed in, on, and around the coach, being nine on the inside and twelve on the outside, including the driver. Upon some one's remonstrating with the Agent, for not furnishing another coach, the cool reply was, "this is nothing to the load we took yesterday, we then had twenty-two grown persons and eleven children."

Crack goes the whip, and off start the horses, followed by the coach with its swarm of living freight, the legs of those on deck hanging down all around—the feet dangling like so many tassels to a fly net. One pair had attached to the heels of the boots which encased them, a pair of miniature horse shoes, and as the horses made rather slow progress, some one suggested that that horse on the top of the coach be taken off and put in forward.

We arrived at Watertown at half past one, P. M., when after getting a good dinner at the Planter's House, we again embarked for this place, where we arrived at about eleven in the evening, having travelled at the extraordinary speed of three and a half miles per hour, over good roads. A little opposition on this line would be of vast importance to the travelling public, as it would serve to wake up the sleepy drivers, and make the proprietors furnish a little better rolling stock and motive power.

Tonnage Reform—Ship Builders Convention.

Messrs. Rufus King & Co: Whereas the writer, in the course of his legitimate business, having long witnessed the deleterious influences of the existing rule for the admeasurement of vessels in the U. S., and knowing the importance of correcting the present absurd system of "Tonnage," if it be expected that the ship-builders of America shall continue to sustain themselves against the fearful odds, which the fostering spirit of more enlightened legislation on the part of other commercial States is raising up against them, calculated to put strip them in the march of improvement, it was highly gratifying to learn from the public press that the ship builders of Maine have held a convention and determined that Congress *shall* place them on an equal footing with builders of other countries. It is a notorious fact, which no enlightened modeller will dispute, that there is scarcely a single ship, of more decks than one, to be found in the merchant service of the United States, over whose design the tonnage rule has had no warping influence in determining her principal *dimensions*, and consequently in defining her *form*. And it is equally well known to the modeller of single decked vessels, that the forced adoption of *small* dimensions, to curtail the "Tonnage," and obtain the capacity required, at the same time depreciates the quality of the vessel, and defies any material improvement on the stereotyped forms handed down by our predecessors in the art. So long as tonnage is based upon *principal dimensions* the seas can be but partially subjected to the demands of Commerce.

The builders of Maine have invited the co-operation of their brethren throughout the Union: and I find that the pioneer agitator of this movement, John M. Griffiths of New York, has proposed through the columns of the "*Scientific American*," newspaper, that a *National Convention* of the ship builders of the United States be held in New York City some time during the coming summer, to take such measures as shall effectually accomplish the object of Tonnage Reform. He says "let the ship-builders of each State appoint delegates to the proposed Convention, the object of which would be to fix the *basis* of a law, and petition Congress for its immediate passage. It seems to me to be only necessary to fix a time and place for holding such Convention, and the work is in a state of forwardness that will ensure success." A ship-builders *Convention* is a new thing under the Sun, but not on that account less entitled to the grave consideration of the commercial interests, and a kind reception at the hands of the mechanical department. It will be a proud and memorable day, in the history of commercial enterprise, when the Architects of American shipping shall deliberate upon the independence of the nautical artist, and determine to set the genius of the American ship-builder *free* from the unmeaning bondage of barbarous statutes, and crude formulas of "Tonnage." Let all remember that *progress* is worked by an *eccentric* on the driving shaft of the moving world, and is co-eval with the revolutions of the globe. Bearing this in mind, we hope that all who have waited for the ball which is now in motion will perceive that the *tide is rising*, and now is the time to launch out into deep water.

I would therefore respectfully suggest to the shipbuilders of Wisconsin that we consider the matter of a State Convention to appoint delegates to a Union Convention for Tonnage Reform, to be held in New York as proposed, or in any other way to secure the attendance of a representation from this State whenever the time shall be fixed for assembling. The Builders of Wisconsin have too much enterprise to remain idle spectators of a movement like this, and the writer will be glad to hear publicly, or by letter, from his fellow-mechanics upon this subject at an *early day*.

Very Respectfully, a Shipbuilder,
W. W. BATES.

The Remarkable Phenomenon of Friday Evening, 5th inst.

We find in all of our exchanges in this State, and as far west as the Mississippi river, notices of the singular aerial phenomenon witnessed on Friday evening last. Its appearance seems to have been different in different localities.—The Grant Co. *Herald* has the following description of it:

On Friday evening last, a few minutes after sun down, an immense meteor was observed shooting from a point about 60 degrees above the horizon, and 10 degrees west of north, toward the horizon. In about a second of time it fell through some 30 degrees or more, leaving an intensely bright track of flame through the whole space, which lasted a second or more after the apparent explosion of the meteor. The explosion seemed like that of a rocket, scattering a great many balls of fire. From the point of explosion along the line traversed by the meteor was left a dense vapor, at first of apparently great heat, but gradually changing, as if by cooling, into a white smoke. This streak of white vapor or smoke, after remaining some ten minutes, during which it swayed into a zigzag, separated from the mass of vapor left around the point of explosion, and gradually coiling into a circular form, floated away toward the west. The mass of vapor around the point of explosion spread apparently over some 8 or 10 degrees, around its outward edge, seeming, in a few minutes after the explosion, white, but toward the centre like a dim flame. Near the centre of the point of explosion, could be discovered a point of intense fire, and to the eastward of this, flashing flames.

This apparent burning point moved toward the east with such rapidity that its motion could readily be discovered by the eye. The mass of vapor around the point of explosion was visible for about half an hour, when it with the burning point disappeared. The mass of vapor that had coiled itself up from the point of explosion to near the point of the starting of the meteor was visible for a much longer time. There was no noise accompanying the explosion.

The Galena *Advertiser* has the following:

Phenomenon.—Last Friday evening, a little before 8 o'clock, a singular phenomenon was witnessed by several persons who were sitting on the guards of the steamer War Eagle. It consisted of an immense ball of light which suddenly appeared in the heavens at an angle of about 45 degrees, and fell from thence to the horizon, leaving behind it, not a fiery tail, as is usual with such phenomena, but a track of dense white smoke, which kept its perpendicular position in the sky for about three minutes, and then slowly curled itself up like a huge serpent, and in about ten minutes vanished.

A Mother's Influence.—Those who recollect the correspondence between Mrs. Ward and her daughter, at the time of the divorce case between the latter and her husband, Mr. J. B. Lawrence, of Boston, will not be surprised that the sort of ethics inculcated in those letters to one child has borne fearful fruit in the murder of an unoffending man by another. Mr. Lawrence objected to the use of artificial color by his wife. The latter complained to her mother, who wrote as follows:

"Defy the opinion of the universe, the commands of Mr. Lawrence, and every one else.—Stick to it with some of your mother's spunk.—Could you be worse off than now? You are miserable now; could you be more so then? It can't last long, and you leave giving out to others.—My dear child, determine one of two things—to give it up at once, or stick to it in defiance of all and everything that may oppose. You cannot live long as you are. Then, Sallie, be a woman, and act like one in future."

After such a letter as that to a daughter, what wonder is it that the testimony in the late murder case, discloses the following facts:

On the 2d of November, at about 9 o'clock in the morning, Matthew F. Ward went to a gunshop in Louisville, bought a self-cocking pistol which "would send a bullet through a two-inch board, anyhow," as the maker of it testified, and ordered it loaded; he afterwards bought another of the same kind, which he also ordered loaded. Percussion caps were put upon both, and they were thrust into the breast pocket of his coat.—He then went home and told his mother that he was going to the school-room of Mr. Butler, to demand an apology of him for having on the day previous punished his brother, Willie Ward, and for having charged him with lying. *His mother advised him to be calm.* AND TO TAKE HIS BROTHER ROBERT WITH HIM, AS BUTLER WAS A LARGER MAN THAN HE WAS. Matthew told his brother to get his hat and come along, taking with him also a large bowie-knife which he was in the habit of carrying.

The "Secret Correspondence."

Indignation of the czar at its publication—explanation and comments.

(From the St. Petersburg Gazette of 31st.)

"The British Cabinet has just published all the confidential correspondence to which the article in the *Journal de St. Petersburg* alluded on the 18th of February. In addition to these documents, it has thought proper to introduce not only the Cabinet notes exchanged between the Imperial Court and that of England, but even the secret reports which Sir H. Seymour made to his Government of his private conversations with His Majesty the Emperor.

"It was natural that public curiosity should be most excited by the latter. Without examining how far the English Envoy allowed himself, however unwittingly, to be influenced by his prejudices and impressions, party spirit and bad faith have not failed to draw, from his account, the most unfounded inferences and the most false interpretations. Misled by expressions of which the reporter himself avows he was not always certain of having exactly caught the precise meaning—deceived by some fugitive ideas thrown out by chance in the warmth and the confidence of a conversation without constraint—he thought he saw in the words of the Emperor, such as they have been reported, the proof of objects determined beforehand, of territorial arrangement at the expense of Turkey—in one word, of a plan of partition which His Majesty had proposed to England, without the participation and to the exclusion of other Courts.

* * * * * * * *

"In the eyes of impartial men, the publication which has just taken place will prove only one thing—the abuse of a generous confidence which has not been appreciated, and the injustice of suspicions, have been made the pretext of a disastrous war, for which, but for them, there would not have been any cause."

Falling of a Building at Beaver Dam.

By an extra from the *Republican* office, we have the following:

Tremendous Crash!—About one o'clock this afternoon, the large three story building, being erected by Mr. Wm. Farrington, nearly opposite the Empire Block, in this Village, came down with a tremendous crash.

Fortunately the hands had not yet returned to their work after dinner, and none but the builder, Mr. Wm. Gowdy, and a hand, Ezekiel Swarthout, were in the building at the time, and, strange as it may appear, they escaped with but a few slight bruises. They were precipitated into the basement, thereby saving their lives.

The building had been raised but a few days, and nothing was done towards enclosing it except the roof boards being placed upon the rafters.

The cause of this disaster is, at this time, a fruitful source of speculation among our citizens. Some say the roof spread apart, while others contend the wall upon which it was built gave way.

At the time of the fall the wind was blowing quite fresh from the southwest, which undoubtedly was the principal cause of the disaster.

The upper story of the entire building was to have been finished off into a splendid hall, and it had already been engaged by Mr. Ward to entertain his company in on the 4th of July next.

The large structure now lies in a most confused mass of broken, shivered fragments.

Our Climate.—While the Eastern papers complain of a "cold backward Spring," and snow storms in April, our country is blest with a clear sky and warm sun, with refreshing showers and wild wood's flowers and thousands of singing birds. If we have had a cool day or two, they have followed and been succeeded by warm and genial sunshiny days. We believe no country in the world is more generally healthy than Northern Wisconsin, or possessed of a more salubrious climate, or freer from the fogs and miasma of the billious regions of the West.—*Appleton Crescent.*

Attempted Suicide.—A Mrs. Bean a married woman of this city made an unsuccessful attempt to shuffle off her mortal coil yesterday morning by taking laudanum. She swallowed an over dose and became crazy. The neighbors were alarmed and suspecting the cause sent for Dr. Blake, who succeeded by means of the stomach pump in dislodging the poison. She is now in a fair way to recover. Domestic trouble was the cause of this rash act.—*Oshkosh Courrier.*

Stocks.—London papers received by the "Arabia" show that there has been a considerable advance in the value of Canadian Railway securities. Grand Trunk £23 shares have improved from £1 to £2 per share; and the same advance has been realized on Great Western shares, which are £20 10s. each; Great Western bonds have improved in the same proportion, say 4 per cent; Hamilton and Toronto shares were without change, and the Bonds were better by 2 per cent; Government Debentures have also improved, but not so much as Railway bonds; the quotations are 1 per cent, better than the previous week.—*North Amer.*

For the Daily Sentinel.

Dogs! What's to be done with them!

There's an old saying—if you want to find out how many idle people there are in a city, set two dogs fighting, and the number collected to witness the fight, will afford you the exact information sought. If the test spoken of above, was applied in *our* city, a very large number of our citizens would be condemned as idle, as dogs are as plenty as lawyers, and dog fights as numerous as law suits, and lookers on twice as many as both. While standing on the steps of the stage office the other day, we counted running about in sight of our stand *one hundred and three dogs* during *half an hour*. The whole city is infested in every part of it with dogs; and what makes them more dangerous, now than before, is that they are being worked in carts, &c. We saw one yesterday harnessed in a cart, drawing *two hundred pounds* of flour, goaded and urged, by a man who called him Lis, to his utmost strength to draw the load, his mouth wide open, his tongue extended, lolling and panting with heat; we watched him a short time, and he came opposite one of those puddles of slimy liquid—neither man or dog, can go far in the city without passing one—he attempted to drink, which was noticed by his master, who administered him a kick, for his inclination to slake his thirst. The dog either from the effect of the kick or exhaustion, had to lay down and in a few minutes, was again kicked to make him get up. It is such treatment as this which drives dogs mad in hot weather, and had the scene just described occurred in one of the hot days we had last summer, or on some of those we may, and most likely shall have this summer, what would have been the result? The chances are strong that any dog would be mad, with such treatment; or from being worked in hot weather.

Several years ago, in the cities and towns of England, the practice of working dogs was carried to such extent, and with such cruelty, that it was a common occurrence, to have dogs break from their harness, dash down streets, biting and snapping at everything within reach. Cases of Hydrophobia became so common, that the attention of the government was called to the matter, and on examination, in nearly every case that occurred in the cities and towns, the cause was, that the dogs were worked too hard, and, becoming overheated, ran mad. An act of parliament was passed to prevent them being worked at all in cities or elsewhere, and the result was, and is, that Hydrophobia has passed away, and is scarcely ever heard of. Something should be done with the dogs in this city; they are more numerous than ever, every ward fairly swarms with them at the present. The hot weather is coming, and will soon be upon us. The ordinance claims that all dogs shall be muzzled, when suffered to run at large; and if not muzzled be liable to be killed; while this law be enforced, or will it, like the cleaning the streets, be neglected, till the cholera and other diseases are invited to come and desolate homes? Will dogs be permitted to run at large, till some citizen is bitten, and dies in the agony of Hydrophobia, before they are destroyed, kept up or muzzled when running round the streets? The newspapers bring cases of people being bit in other cities, and if we want to escape, the dogs must be kept under: the life of one citizen is worth more than ten times the number of dogs in the city; and that number is incalculable.

Homestead Bill—Land Grabs, &c.

The following is from the correspondence of the N. Y. *Herald*;

Washington, May 4, 1854.

Quite a stirring sensation has been produced in both houses, among all parties, by the president's veto of the Lunatic Asylum land bill, not so much upon the merits of the bill itself, as upon the probable effect of this veto upon the Homestead bill, Bennett's Land bill, the railroad swindling land bills, and even the Nebraska bill.

It will appear from the incidental debate in the Senate to-day, that there is some considerable doubt about the policy of passing the Homestead bill after this lunatic veto. It is declared by the President himself that he is in favor of the railroad land grants to the Western stock-jobbing combinations, so that as far as their safety depends upon the President's approval, they are perfectly secure, right and tight. But these land-jobbers are endangered by this veto from the reaction which it may bring about among the members of the old States against the land monopolizing projects of the new States. It is feared that this reaction will make enemies to these Western railroads of a number of men who have been heretofore friends of the projects upon log-rolling principles.

As for Bennett's land bill, there can be no question that, if passed, it will be vetoed. The President will take the ground that between the distribution among the States of the proceeds of the public lands and the lands themselves there can be no constitutional distinction.

Again, it is apprehended that the Nebraska bill will lose by this veto of the lunatics the support of a number of members in both houses, who may have no longer any sufficient object to risk their own political heads for the relief of an administration whose policy of land grants has been officially declared to be limited to the benefit of the monopolizing land-jobbers of Western railroads. The motion of Richardson, on Monday next, I apprehend will show an unexpected amount of fluttering and dodging upon the Nebraska question. Nor do I believe there is any reasonable ground to suppose that the Nebraska bill, for repealing the Missouri compromise in any shape or form, will be passed by the House next week, next month, or at any time this side of the next session of Congress.

The certain effects, then, of the veto of the lunatic bill will be, in Congress or at the White House—

The defeat of the Homestead bill.

The defeat of Bennett's Land Distribution bill.

An additional dead-weight against the Nebraska bill.

On the other hand, the clearly expressed favoritism extended by the administration to the Western railroad land-jobbing schemes, will have the effect of rallying all their forces to the support of the administration. A wag was heard to declare to-day, in the Rotunda, that the President having broken up the democratic party of the North, and having failed to build up any satisfactory democratic harmony in the South, has now bit upon this exclusive Western railroad land policy, as the last expedient for a powerful administration party in the West, upon the spoils of the public lands. How the expedient will succeed remains to be seen. But from the present aspects of the lunatic veto, its natural effect will be to rally together a powerful combination against the Western railroad cliques sufficient to defeat all their projects.

A Remarkable Safe.—The safe which has occupied a large portion of the Sub-Treasurer's office in the Custom House was removed last month to the Assay building adjoining. Its dimensions are 18 feet by 12, and 9 feet high, and constructed of plates and bars of *Chilled Iron*, its weight being 15 tons. The safe, as it stood in its position in the Sub-Treasurer's office, resembled a small house. It had two apartments—in the inner one has been kept an average of over six *millions* of dollars in gold and silver.—Three sets of keys are required to open this safe. One set, those belonging to the inner safe door, being in the possession of the Sub Treasurer.—The outer door of the safe being kept by the Cashier; and the keys of the door of the Sub-Treasurer's room—(a perfect *safe* in itself)—being taken by the Collector. Numerous small safes were procured to contain the money during the process of removal.—*N. Y. Sun.*

More Altered Notes.—We were shown yesterday, several bills of twos and ones on the Bank of Racine, which had been altered to 10s and 20's. They were very skillfully done, and the rascals deserve what attention they would naturally get if they were once caught. They are doubtless contemplating a visit to Waupun or Alton.—*Racine Advocate.*

Annual Expenses of our State Government.—These grow more and more numerous from year to year; practice makes the robbers grow bold. Last year they were estimated at about 155 thousand dollars. This year according to a careful computation made by the Milwaukee Sentinel, they will amount to the enormous sum of three hundred thousand. The Wisconsin endeavors to contradict some of the Sentinel's calculations, but without success. The wonder is not at the stealings, but at the patience of the people.—*Wisconsin Pinery, (Dem.)*

News from Ireland.—We find the following paragraph in one of the abstracts of the news by the *Africa*;

From Ireland we have very favorable agricultural reports. The quantity of potatoes sown is unusually large. Cholera had broken out in Limerick, and on board emigrant vessels in the harbor. The existence of cholera was certified on the bills of health of the latter prior to sailing. The vessels were bound to Quebec.

Exciting Scene in a Canada Court.

The Queen and her Armies denounced from the bench as murderers.

We learn from the Montreal *Gazette*, that on the 26th ult., when the Superior Court met, Mr. Justice Day, Mr. Justice Smith, and Mr. Justice Mondelet being on the bench, a motion for an adjournment was made, as the day had been set apart by the English government for fasting and prayer, on account of the war.

Mr. Justice Mondelet remarked that for his part he would never consent to an adjournment to pray for a pack of murderers.

The Hon. Mr. Badgly (President of the bar,) made some remarks favoring the motion for an adjournment.

Mr. Justice Mondelet several times interrupted the speaker, saying with much vehemence that "they were a parcel of murderers, deliberately going out to cut each others throats; that he did not care which party got their throats cut, and that he would never consent to an adjournment to pray for such people."

Mr. Badgly stated that of course his Honor was entitled to his own opinions, although they were opposed to those of the whole civilized world. That probably whilst he spoke, the whole British Empire was prostrating itself in prayer for the success of their armies—that in this city the example was being followed to a great extent—the shops were nearly all shut, and he thought that a respect for such feelings would render it indecorous to transact the public business of the courts on such an occasion.

Mr. Justice Mondelet stated that the shops were not all shut, and repeated that he would never consent to an adjournment for such a purpose.

Mr. Bedwell said the result was, that there had been no business done in the court on that day, and that certainly this was an occasion on which an adjournment was more urgently required.—He certainly was very much surprised to hear what had fallen from one of their Honors. The gallant soldiers who had gone out to fight the just battles of their country denounced as robbers and murders! Then much more were their officers and leaders murders, the British Parliament and Ministers also—nay, the Queen herself, who declared war, was a murderess, and if so, to pray for their success was blasphemy.

Mr. J. Mondelet—So they are. So it is.

It would be hard to describe the intense feelings of excitement and disgust prevailing among the bar during this colloquy, and audible hisses and groans were for the first time in our recollection made use of to express its disapprobation and detestation of the sentiment uttered by Mr. J. Mondelet. French and English barristers alike, felt that decency and propriety were outraged.—Mr. Loranger immediately arose to interrupt Mr. Bedwell, and stated that he had consulted with the other members of the bar present, that Mr. Doutre withdrew his objections, and the advocates present were unanimous in their support of the application for an adjournment.

Mr. Justice Day said, in that case there would be no further difficulty in adjourning the court, and it was adjourned accordingly.

From the N. O. Picayune, April 27.

Indian Outrage.

In yesterday's evening paper we made a brief mention of some murders committed by a party of Indians near San Antonio, Texas, taken from an extra *Ledger* of that place, of the 17th inst.—Since then we have also received one from the *Western Texan*, of the same date, and from the two, we make up the following narration:

On yesterday, about 3 o'clock, P. M., news was brought from Mr. Galagher's rancho on the San Geronimo, about 23 miles from this city, that a party of Indians, four or five in number, and supposed to be Comanches, had made their appearance at that place, had killed and driven off a number of sheep, and that a man and woman, the shepherd and his wife, were missing, probably carried off by the Indians. At the door of the tent in which the shepherd lived an arrow was found. The furniture, &c, in the tent was scattered about, and a trunk broken open and its contents thrown out. From that place they then took their route over the hills in the direction of San Antonia. This morning at 2 o'clock, Mrs. Forrester arrived in town, from whom we gather the following later and more dreadful account.

Her husband, James Forrester, had resided for some months past on a small rancho, 18 miles from town, a short distance off the Fredricksburg road. Yesterday, between 2 and 3 o'clock, her husband was preparing to come to this city; a German neighbor, who lived about a mile off, had come up and was engaged in a conversation with Forrester, and during which time a cow came running up with her sides pierced with several arrows. Upon seeing this, the German remarked that there must be Indians about, and that he would ride over home and pack up a few things he had, and then return, as he was alone, and that two men would be better able to meet the Indians, if they came, than one. He accordingly started off and had been gone 10 to 15 minutes, when three Indians, well armed with rifles, bows and arrows, knives and spears, made their appearance a short distance from the house and commenced calling. Forrester came to the door and asked them what they wanted. They asked for something to eat, but before he could comply with their request, he was shot through the body with a rifle ball and fell dead.

The mother, with her infant child in her arms, sprang to the door, but before she could escape, she was knocked down with a gun—receiving a blow on the back of her head; and they supposing her dead, commenced their other depredations, she sprang out of the door without her child, and started for the bushes which were near by. As she turned the corner of her house, she was met by one of her children, a girl about twelve years old, who had been to play near by, and attracted by the noise, was coming to the house. She screamed to the girl to run, and the child, being frightened, instead of fleeing, ran immediately into the house, and the mother screened herself in the bushes. She had hardly accomplished this, when the Indians came to the door, four little children at the house, and actuated by those feelings known only to a fond and devoted mother when her children are in such an awful situation, she, thoughtless of danger, rushed to the house, and coming to the back part, where she could look through, she saw a sight too horrible to relate. One of the savages had her oldest daughter—a girl of fourteen years of age—by the hair of her head. Here the poor woman commenced wringing her hands and wailing.

She could not relate what followed: it was too horrible; and God grant that we may not be pained to hear such another tragedy related, and that, too, by a mother about her children. Seeing there was no hope of saving her family, she fled, and arrived in San Antonio this morning. She believes her children all murdered, and she says if they had all been killed before her eyes she would feel far different than she does now. If they are not dead she knows they are in the hands of savages, and will undergo the most cruel treatment. Active measures have been taken to pursue these marauders. A party of twelve men of Lieut. Stockton's company, under his command, started last night at 12 o'clock, taking with them several of the Lipan Indians as trailers. Expresses have been sent in various directions, and to Forts Inge, McKavitt, Terrett, and also to Austin and Corpus Christi in order that no measures shall be left untried to trace these depredations to their proper source, and to punish the perpetrators of the murderous crimes, which are becoming almost of daily occurrence on our frontier. Another party is about to start—consisting of some forty or fifty men, (citizens and soldiers.) They will be accompanied by Majors Neighbors and T. Howard, Indian Agents. Capt. Whitel has also volunteered his services. They would also take with them a number of Lipan guides.

Settled at Last.—The long-pending troubles between the Lake Shore Railroad and the State of Pennsylvania, have been settled in a friendly way. The Pennsylvania House has passed the Senate bill, after striking out the clause levying a *per capita* tax on through passengers.—The Cleveland, Painesville and Ashtabula Road is to subscribe $500,000 stock in the Sunbury and Erie, and under certian stipulations a track is to be built to the harbor of Erie. We are glad the matter is settled.—*Buffalo Courier.*

What are we Coming to?—The Detroit City Mills are paying $1,75 a bushel for wheat, and charging $9,25 a barrel for flour. And the tendency is still upward. In a short time, unless a reduction in the price of breadstuffs takes place, persons of small means will either have to go without bread entirely, or take to corn meal.—*Detroit Free Press, 9th inst.*

Good Horses—Good Price.—Mr. N. Hale, lately purchased a pair of horses that had been broken by Mr. Isaac Howland for $650, carried them to New York where he sold them for $2000. A pretty good price, and a pretty good profit and you may rest assured they were pretty good carriage horses even for Janesville.—*Janesville Standard.*

The Crops.—A friend who has recently been travelling through portions of this and Calumet counties, informs us that everywhere along the route he travelled the crops appeared excellent.—If nothing happens to the wheat crop between this time and harvest, this county will turn off a much larger amount than ever before, and of better quality.—*Sheboygan Journal.*

Workmen Wanted!—From all sides we hear a loud and long complaint of the scarcity of laborers. The Farmer is busy in his fields, the new comer in clearing and fitting a piece of land for Spring crops, building him a cabin, or a house, the Mechanic has more on his hands than he can do, the laborer of every class is drove with work of one kind and another, and scarcely a loafer has any time for his business. Never has there been a greater demand for help of all kinds than at present, and the demand for workmen of every trade bids fair to be greater than at present.—*Appleton Crescent.*

Chicago and Milwaukee Railroad.—A meeting of the Directors of the above company was held at their office in this city yesterday, for the examination of estimates and for other business. We learn that a forfeiture was declared of all stocks and the payments thereon, on which the instalment due the 1st of May inst. was not paid. The stock thus forfeied, we understand, is inconsiderable in amount. The grading upon this road is completed a distance of ten miles, and the work is being prosecuted with an efficient force of men.—*Chicago Press.*

There is quite an excitement in town relative to the survey of a new line for a Rail Road to the Mississippi, which was completed during the week by Col. Lees, chief engineer of the S. W. R. R. Co.

From information obtained, we think this new route the most feasible of any yet spoken of—for grade and economy in the building.—*Potosi Republican.*

Washington, May 8th.

Senate.—Senator Douglas presented a memorial signed by five hundred clergymen residing at the North and West, protesting as citizens against the passage of the Nebraska bill.

Mr. D. upon presentation of the memorial made some remarks, in which he defended his Chicago letter, and he commenced an attack upon clergymen in general for their interference in politidial affairs. He was particularly severe upon a sermon delivered by Rev. Dr. Richardson, of Chicago.

New York, May 9.

By the *George Law* we have dates from Callao to the 11th, and Australia to February the 21st ult.

Intelligence from Australia not of much importance

The steamers *New Orleans* and *Norfolk* were lying at Sydney unsold.

Emigration still active between Australia and Peru.

A fire at Hobartown destroyed property to the amount of $500,000.

Mining affairs prosperous. A monster nugget was found near Melbourne weighing over 52 pounds, almost pure. Price of gold 77s 6d.

The *Star of the West* arrived last night with dates to the 15th of April. She brings 615 passengers and $1,116,947 on freight and $800,000 in the hands of passengers.

The Mexican Consul was indicted on the 3d for violating the neutrality law by enlisting soldiers for Mexico.

Walker, convicted of filibustering, was sentenced to pay a fine of $1500.

Emory plead guilty of the same offence, and was fined same amount.

San Francisco—Shocks of an earthquake were felt on the 10th.

It is said another attempt will be made this session to elect U. S. Senator.

City election in Sacramento resulted in a whig victory.

News from Mexico interesting. Santa Anna blockaded port of Acapulco, and the Government troops and revolutionary party were fighting. The steamer *John L. Stephens* fired at and not allowed to communicate with the shore. Santa Anna, with an army variously estimated from 3 to 5000, was encamped in the neighborhood and it was expected he would make attack on the town during the night.

JUDGE HUBBELL PRESIDING.

Thursday, May 11th, '54.

Catharine Wallace vs. Alexander C. Wallace—Decree of Divorce.

William Payne vs. Lewis Curtiss and Joseph Wilmot—Trespass—Jury empannelled, sworn and case proceeding.

POLICE COURT, MAY 11th.

The case of the city vs. William A. Webber, for fast driving on the Spring Street Bridge, was adjourned till Saturday week. The excuse for the driving as charged in this case, is, that the defendant was walking his horses on the bridge, when the Tug boat blew off steam, frightening the horses, and that the driver couldn't manage them.

A warrant was issued against Nancy O'Brien for an assault and battery upon Mary Dwyer on Wednesday night. The defendant was arrested and taken to jail by Constable Ryan.

A complaint was made by Rose Keogh against Matthew Keogh, for an assault and battery upon complainant; a warrant was issued for his arrest.

A warrant was issued against three men named Miller, Buchanan, and Buchanan, for an assault and battery upon Johann B. Klintzing.

A third warrant was issued against John Doe, for breaking the windows of John Komer.

A complaint was lodged against Cornelius Smith, alias, for an assault and battery upon Edward Deely on the 9th of May.

ERRATUM.—The types yesterday made us speak of the modification of the Harbor contract as removing "all obstacles to a cordial co-operation of the City and Government authorities in prosecuting this important work." We wrote that the change *removed* "all obstacles," &c.

THE NEW DIRECTORY.—Col VAN SLYCK has the Directory nearly ready for publication, and gives notice to advertisers to have their cards when called upon. See his advertisement.

NEW ADVERTISEMENTS.

The handsome and fast steamer *Garden City*, Capt. A. H. SQUIER, has come around to take her place on the Sault St. Marie route. She has undergone sundry alterations which make her handsomer and better than ever, and will be a favorite boat on the route. The business connections between our city and the mining region are daily increasing, and we trust Capt. SQUIER will have a profitable season of it. The *Garden City* leaves here for the Sault to-morrow morning, at 7 o'clock. See advertisement.

L. COMSTOCK; it will be seen, has opened a yard, up town, for the sale of *hard wood lumber*, which has for a long time been much needed for various mechanical purposes in our city.

Messrs. TUCKER & GARVEY, law firm, have dissolved their partnership.

A WOMAN is wanted nothing extraordinary in these latter days: but see advertisement for explanation.

H. J. NAZRO & Co. inform the public of their receipt of additions to their stock of various kinds.

Some one has lost a Dog, which he thinks enough of to advertise it. We wish some one would lose about 5000 dogs of the number about town, and never find them.

RUDDER'S GAS REGULATOR.—The agent of this ingenious and valuable invention is at the U. S. Hotel, and will remain during the week to adjust the instrument for such as desire.

THE PEAK FAMILY COMING.—We learn that this family of Vocalists and Bell Ringers, of whose performances we have seen many complimentary notices in our exchanges, expect to visit our city the first of next week, and give our people a taste of their quality.

FOR BUFFALO.—The propeller *Milwaukee* will leave Dousman's Warehouse to-morrow morning at 10 o'clock, for Buffalo, calling at all the intermediate ports. The *Milwaukee* has been newly painted and fitted up expressly to accommodate passengers.

For freight apply at Dousman & Co. for passage apply to Hard & Griffen agents, corner of Huron and Main Street.

☞ The Grand Jury brought in six indictments, the titles of which, those most interested will find out.

PROPERTY TO EXCHANGE.—See D. G. POWER'S advertisement of real estate within an hour and a half of New York city—say 50 or 60 miles—to exchange for lands in Wisconsin. It is a chance for some eastern man to better his condition by coming out into the fresh air of the prairies.

"LIVINGSTON'S LAW REGISTER."—We have received, through the Post office, a copy of this valuable book, compiled with great labor and expense. It contains a host of valuable information. Among its numerous items are the following:

List of all the counties in the U. S. with their shire-towns.

List of all the lawyers in the Union, with their post offices, by states—comprising nearly 200 pages of names.

Government of the U. S. in all its branches.

Collectors, Registers, and Receivers.

Pay of Army and Navy.

U. S. District Courts, and time of holding same.

Diplomatic Statistics in full.

Insurance Cos. Banks, and Railroads, State officers, Supreme Circuit and County Judges, Sheriffs and County clerks of each State.

Laws relative to Deeds, dispositions, exemptions, &c., in each state, &c., &c.

This book of 600 pages, will be sent by mail on receipt of $2.00 addressed to JOHN LIVINGSTON, 157 Broadway, N. Y.—and will be a good investment for any one at that price.

A New Engine for No. 1.

Messrs Editors: Some weeks since a petition was presented to the Common Council from the Officers and Members of Engine Co. No. 1, asking for an appropriation of money to purchase a new Machine. The petition was referred to the Committee on the Fire Department, who have it still in their keeping. I think the request so reasonable a one, and the reasons in favor of granting it so conclusive, that I cannot but hope the Committee will so report at the next meeting of the Council and that the Board will concur without hesitation, or delay. Allow me in a few lines to state, briefly, some of these reasons. Number One is the oldest Company in the City; their machine has been the longest in use (having been purchased 9 years ago) and has done more service and cost less money, than any other in the Department. Although a good engine and in working order, it is not up to the mark. It has not the power, or capacity which an engine located in the heart of the city, and nearest to the most valuable property, ought to have. The Company, too, is a small one, and cannot increase its numbers unless they can obtain a new engine Give them a first class Engine, costing say $1500 to $2000, and their ranks would fill up at once. There are three or four of our neighboring cities and villages which are in want of Fire apparatus, and the engine now belonging No. 1, might be sold to one of these for $750. At that price it would be cheaper to them than any machine they could purchase at the East, and would answer an excellent purpose. One word more as to the necessity for *prompt* action. If the Council design to give Number 1. a new engine during the present year, the order for it should be given *at once*. Otherwise it cannot be built and brought here till next year. The matter ought not to go over another winter. Therefore I hope that the Council will give Number 1 a new engine without delay.

AN EXEMPT FIREMAN.

Milwaukee, May 11th.

NOTICE.

A meeting of all the merchants of Milwaukee, interested in the detention of goods between here and New York &c., will take place to night, at 8 o'clock, in Furlong's Block. All interested should attend.

DAMAGE AID.—PWe learn that the Captain of the schr. *Garden City* came forward promptly and paid for the slight damage done to the Spring St. Bridge day before yesterday.

☞ The steamer Arctic, Captain Bullin, arrived from Chicago yesterday afternoon, with upwards of two hundred passengers and a large load of merchandize.

FIRE—INCENDIARISM.—Fire was discovered, shortly before midnight Wednesday, in an unoccupied frame building on East Water Street, two or three doors South of Buffalo Street. The alarm was instantly given by the watchman at the Menomonee Locomotive Foundry and promptly responded to by the Fire Department. Engine No. 1 was speedily upon the ground, and commenced playing on the building; the flames meanwhile having been kept under by the efforts of the neighbors. The fire was extinguished in a few minutes, the interior of the building being pretty well charred. It was undoubtedly the work of an incendiary, and at a later hour of the night might have done considerable damage.

BOARD OF SUPERVISORS.—But little business was transacted yesterday by the board of supervisors. The forenoon was occupied in the allowing of sundry accounts, the Board adjourning at noon, until this morning. The several committees were occupied during the afternoon in examining accounts, &c.

CITY LAND OFFICE.

TWENTY FIVE THOUSAND DOLLARS WORTH of the most valuable property in the city of Milwaukee, will be sold at public auction on the 19th day of May, at 10 o'clock.

The aforesaid property is forty feet on East Water St.—On it is two entirely new three story Brick Stores, finished in the very best style, 81 feet deep with offices above, built of the very best brick made in this city, and Lockport stone. The property now pays, under an old lease, sixteen hundred dollars rent, which expires May 1855. It could now be leased to pay $2,600. The ground on which the building stands, is worth, according to the value of property on East Water street, $250 per foot, and the building cost $10,000, but could not now be built for $14,000. The owner of said property is desirous of giving up his business to make arrangements for extensive manufacturing operations, is the reason why said property is offered at public sale. Terms of payment, Cash. CALEB WALL, Agent my8

BUFFALO MARKETS.

Buffalo, May 11th, 12, M.

Our market has been very quiet to-day under the less favorable advices by the steamer *Canada*, and buyers are not disposed to operate at the rates asked by holders, and are waiting the effect of news on the New York market. We could hear of no transactions in either flour or grain to note.

Whiskey market quiet—sales 50 bbls. at 23¾. Canal freights unchanged.

Arrived from Milwaukee since noon yesterday: brigs *Nebraska* and *Mohegan*; schooner *Dewitt*.

NEW YORK MARKETS.

New York, May 11th, 2, P. M

Flour—market for state flour under larger receipts, and less favorable advices from Europe, declined 12½ per bbl. on low and medium grades. Western brands firm and not plenty.—Canadian firm and in fair request—sales 1300 bbls. at 7,94@8,06—sales western canal 3800 bbls at 8,37@8,62 for common to straight state, 8,62@9,00 for mixed to fair Michigan and common to good Ohio.

Grain—nothing doing in wheat—prices nominal. Rye, heavy—sales 1000 bush. at 1,10 for river. Barley firm—sales 500 bush. good 2 rowed at 1,15. Oats more plenty and lower—western 59—state 56a58½. Corn 5a6cts. lower, with quite a panic in market. Large arrivals—advance in freights, and unfavorable news has depressed the market—sales 5000 bush. at 76 for unsound —77a78 for round yellow—78a79 for western mixed—79a80 for southern white, and 74a75 for southern yellow. Whiskey—lower market—supply large—sales 350 bbls. at 26½ for Ohio, 27a 27½ for prison.

Provisions—Pork market heavy—demand light at 14,25 for mess and 13,00 for prime. Beef is quite firm at 14,00a14,50 for repacked Chicago, 5,50a 12,00 for country mess; prime mess firm at 22a 23.

THE BLACK WARRIOR CASE.

WASHINGTON, May 11:

The *Union* says that if ample satisfaction be not accorded in the case of the Black Warrior, it will advocate the immediate blockade of Cuba.

Mr. Richardson offered a resolution that the debate on the Nebraska Bill, terminate to-morrow at 12 o'clock. Discussion and much confusion ensued. Mr. Macy moved to lay resolution on the table. Mr. English moved call of House—refused.

PROVIDENCE, May 11.

The whigs have carried the Mayor and entire board of Aldermen.

The News by the Canada.

BOSTON, May 11.

The whole of the Canada's news, is not yet received here.

A Russian decree gives English and French vessels six weeks from the 19th of April, to escape from Russian ports in the Black Sea, and six weeks from the 19th of May, to leave the Baltic ports. Enemies' property in neutral bottoms will be regarded inviolable.

Liverpool Markets.

Halifax, May 10th.

The *Canada* left Liverpool on the 29th, and arrived at 7 this evening.

The *Atlantic* arrived out on the 28th.

Cotton declined 1-16 on lower and middling, and advanced 1-16 on fair qualities.

Breadstuffs; Dennisons & Co., quote dull market for all kinds, and prices lower, and tend downwards; decline on flour during the week 6dals,—on wheat 3d—and on corn 1a2s. Western canal quoted at 37a37s6d. Baltimore and Philadelphia 37s6da38s6da39s. White wheat 11s6da12s3d—red and mixed 10s10da11s6d—white common 39a 40s4a1s—yellow 40s.

Provisions—Gardiner & Co. quote limited business in beef at unchanged prices, and deficit in the imports of 17,000 tierces. Pork firm at previous rates. Bacon—large transactions at lower prices, and holders demanding further advance.—Lard lower—sales at 51s6da52s. on the spot, 53 to arrive.

Belt & Son report American securities unchanged, with moderate business and firm market.—London money market easy for short periods.—Consols closed on 18th ult., at 87¼a87¾.

Evening Report.

New York, May 11th.

The evidence in the case of Major Wise closed to-day and court adjourned to Monday to give him time to put in his written defense.

The case of Mrs. Hays for the murder of Dr. Lutner went to the jury at noon to-day.

A call is out for a meeting to arrest the violation of the Missouri Compromise, signed by Moses H. Grinnell, W. C. Bryant &c.

The caloric ship Ericsson has been raised and moved into shallow water. Two thirds of the diameter of her wheels are out of water and she will probably float next high tide.

Excitement in Congress on the Nebraska Bill.

Washington, May 11th, 3 P. M.

Excitement in the House. The yeas and nays are called constantly on Mr. Richardson's motion to terminate debate to-morrow—so far without result. The prospect is that nothing will be done to-day, and the House will adjourn when it is wearied out.

Vote by Ballot in New Brunswick.

Boston, May 9, 1854.

The first election by Ballot took place in St. John, New Brunswick, on Tuesday last, it being for Mayor of the city. The result was as follows:—Oliver, (temperance,) 1,103; Smith, 768.

FIRE INSURANCE COMPANY.

Office 185 East Water Street.

Capital over $165,000—in Cash and Premium Notes

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured has a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding three mills on a hundred. ALBANY, July 27, 1852.

This is to certify, that on the 28th day of May, 1851, our entire Stock, composed of Turpentine, Alcohol, Oil, Patent Medicines, &c., was consumed by fire; so rapid and severe was the fire that we were unable to close one safe until the safe was frequently entered at the peril of his life and closed the doors.

After leaving the safe open after all this exposure and fire, which made us anxious for the safety of its contents, its valuables were found untouched.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.

PATENT MEDICINES.

Caution!

To Those Who Use Spirituous Liquors Either as a Beverage or Medicine!

WOLFE'S

Schiedam Aromatic Schnapps.

THE ABOVE NAMED PREPARATION has become extensively known throughout the length and breadth of the United States and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of the juniper berry, that science and a long practice in the distillation and preparation of pure liquors have ever succeeded in producing

A long established manufacturer and importer of liquors of every description, the undersigned devoted himself to the production of an article of pure gin, which should prove a valuable agent in the cure of the manifold diseases which afflict the human race, and for which Holland has been proscribed by the medical faculty for years. At length his efforts were crowned with success, at his extensive distillery in Schiedam, Holland, from which place the purest gin that long been imported, and he was enabled to give to the world his Schnapps, which, for purity and entire freedom from the pernicious fusel oil and all other noxious ingredients, and delightful aromatic flavor, has never been equalled, and cannot be excelled.

In order to prove to himself from personal observation the effects of his cure, impostors, and pirates, who would unquestionably attempt to palm off a vile and poisonous article upon the community, as his genuine Schnapps, like the wolf in sheep's clothing, prey upon their very vitals, he resorted to the expedient of importing and selling his Schnapps only in pint and quart bottles.

Every bottle upon the cork is stamped with the name of the manufacturer; are corked and sealed, and have printed labels bearing the signature of Adolphe Wolfe upon them. These are enclosed in colored wrappers, on which the signature is also written. Each bottle can be obtained in cases, containing two dozen bottles each.

Notwithstanding all these guards, unprincipled parties have been found guilty of the most unwarrantable and criminal practice of refilling empty bottles, filling them with vile common gin, which is the most pernicious poison with which a community was ever cursed, and sends thousands to a retched premature grave yearly.

It is only necessary, therefore, for those who purchase the article by retail, or drink it at public places, to mark well the appearance of the bottles from which they drink. Caution is necessary.

The Schnapps have been introduced but about two years but in that brief time their virtues have been acknowledged to an almost incredible extent, and its a matter of some embarrassment to keep up a supply adequate to the demand, so fast are orders pouring in from every State and Territory in the Union, from Maine to Oregon and California.

Be cermined that the virtues of the Schnapps should be thoroughly substantiated by the most undeniable and unquestionable testimonials, circulars were dispatched to every respectable member of the medical faculty, and profession al gentlemen whose name could be obtained, soliciting their acceptance of a bottle of the Schnapps, with a view of enabling them to test its medicinal qualities in their practice, and submit it to the strictest chemical analysis in that laboratories.

Of the ten thousand physicians and chemists in the United States whom our circulars accepted the offer. Upwards of two thousand have promptly furnished their written endorsement that the article is all that is claimed for it, and in the strongest language recommended its general use, not only as a remedial agent, but a delightful, harmless, and pleasant beverage. These voluntary endorsements are from gentlemen of unquestionable knowledge and the most perfect science.

Nor since have practitioners and chemists furnished their testimonials. The public press, in almost every principal city and town, has spoken boldly in its favor in its editorial columns.

The New York Medical Gazette and Journal of Health, high authority, has repeatedly proclaimed its excellency. In the July number of that journal, Dr. Reese, its accomplished editor, has publicly invited a discussion upon the subject of the use of alcoholic mixtures, medicinally, in his widely circulating columns, and the views of the medical faculty in reference to my schnapps in particular, giving an assurance that they should be spread before the public. Physicians, therefore, who have not already done so, will in my request to forward their opinion as to its qualities, will oblige me by doing so through the editor of the Medical Gazette.

Were it necessary to do more than simply state this fact which he who runs may read, this advertisement could be increased to an indefinite length by the publication of these authorities, all on file at the ware-rooms of the proprietor, in New York.

I, is not only as a remedial agent that the Schnapps are to be recommended, but as a gentle and perfectly harmless stimulus, which cannot be otherwise but healthful in invigorating, and may be indulged in with impunity by those of temperate habits, without the slightest fear of the baneful, mournful, and horrible consequences of intoxication —that vice which desolates the social hearth, fills our penitentiaries, our alms houses, our hospitals, almshouses, and prisons, and even furnishes the gallows with its victims.

In countries where pure wines and liquors can be had ready, and for a mere trifle, they are freely used by all classes, and drunkenness is hardly known—that vice to which the couples of the immortal poet so aptly applies:

"A moment's pleasure, and a month's mirth."

That to be listed, needs but to be seen"

Were Wolfe's Schiedam Aromatic schnapps to be drank in such tenets to all our cities, the Maine Liquor Laws and temperance societies would have less arduous labor to perform, and Horace Greely, Gough, Barnum, and the other less end, eloquent, and devoted friends of total abstinence, would scarcely be called on to ascend the rostrum, and cause thousands to listen with "an attent ear" to the great and startling truths they relate with such fervid and impassioned eloquence. There need be no Maine law to suppress intemperance.

As long as men and women will persist in drinking drugged, adulterated, poisoned liquors, with which the countrys is flooded, drunkenness and all its concomitant evils must exist. We may as well reckon with Cassio—

"Oh, that a man will put an enemy into his mouth To steal away his brains!"

To many sections of this country, particularly in the region of the great western and southern rivers, the character of their waters is such as to produce great disorganization of the system, and frequently chronic diseases of the most distressing character. The preservation and speedication of which would be a matter of supererogation to all those who reside in the districts specified. When qualified with the Schnapps the bane is neutralized or destroyed. The latter has become known as the "NEW YORK," with every bottle and case of Schnapps and Aromatic Schnapps bearing the above enumerated evidences of genuineness. The proprietor solicits the most rigid tests, and defies any person or persons to prove to the contrary or to produce an equally pure extract of the juniper berry or Holland gin.

The public are again reminded that Wolfe's Aromatic Schiedam Schnapps can only be procured in pint and quart bottles, stamped, labelled and corked, and in colored wrappers, with the signature of the proprietor affixed; and that the word Schnapps belongs exclusively to my medicinal beverage. All others are counterfeit.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

These Pills being composed entirely of medicinal herbs are of a most harmless nature, while the searching efficacy of most powerful remedies have rendered them universally popular in nearly every part of the world. The immense success they have met with throughout the States in most extraordinary, owing, it is presumed, to their wonderful efficacy in the cure of Bilious complaints and disorders of the Liver and Stomach. Persons who preserve in using them in accordance with the directions, seldom fail in being restored to health.

WEAKNESS AND DEBILITY.—RESTORATION TO HEALTH OF A GENTLEMAN, AGED 45, WHEN AT DEATH'S DOOR.

Copy of a Letter from the Rev. Charles Smith, dated Norton St. Philips, near Bath, Somersetshire, 11th August, 1853.

TO PROFESSOR HOLLOWAY,

SIR,—A Mr. JOSEPH PERTON, formerly a resident of this place, had been in a declining state of health for upwards of three years, gradually wasting away to a skeleton by slightly perspirations and want of appetite, which caused great uneasiness to his friends, as he had consulted various medical men in Bath, without effect. He at last used your Pills, and under providence was restored to health by their means. He shortly emigrated to New York, and has just written to say, that he was never better in health, and desired me to acquaint you with the circumstance. I could also mention that my own wife had derived great benefit from the use of your Pills.

I remain, sir, yours respectfully,

CHARLES SMITH, Dissenting Minister.

A PERMANENT CURE OF DISEASED LIVER, OF MANY YEARS' DURATION.

Copy of a Letter from Mr. Gumis, Chemist, Yeovil, to Professor Holloway.

Dear Sir—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention in the following case. A lady of this town, I am personally acquainted, for years was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and that he feared she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has never experienced any symptoms of disease, and often declares to me she owes her life to the means of saving her life.

I remain, Dear Sir, yours truly,

(Signed)

July 22d, 1853. CHAS. STREATER, M. D.

Mexican Mustang Liniment.

DURHAMVILLE, N. Y., December 12, 1851.

Messrs. BRAGG & Co.:—

GENTS:—Although a stranger to you, I am not to your most valuable medicine called Mexican Mustang Liniment. In the year 1847, I became afflicted with an enlargement of my knee joint; also a weakness which disabled me almost from using my limbs at all. I called on a physician in Syracuse—(the name could be given)—he examined it and told me to bathe it with warm water, and rub it two or three times a day, and it might go off without much trouble; if not, to call again. Some weeks passed, and it grew no better. I then called on another doctor at Onondaga Depot; he told me nothing would help it but blistering and lancing. I could not consent to this, and called on Drs. C. & T.; they gave me a mixture of indigo, calomel, &c. I tried this and it did no good. I then used five or six dollars worth of a liniment that had been recommended to me. All of those medicines I have been using for the last ten months, thorough, and according to directions, without the least possible good resulting from it. I then obtained some of your Mexican Mustang Liniment; the first bottle, a 25 cent size, I perceived straightened my joint. I am now using my fourth bottle, and my knee is nearly well. Yours, &c.,

HIRAM FIELD.

HUNTSVILLE, N. C., November 22, 1853.

Messrs. A. G. BRAGG & Co:—GENTLEMEN—Having been afflicted with the rheumatic pains for the last four years, and happening to meet with your advertisement in the papers, I came to the determination to give it a trial, as I had tried nearly every popular remedy without effect. I am now happy to say to you, that the Mexican Mustang Liniment has entirely cured me. I applied three fifty-cent bottles on my limbs, and am now as free from pain as I ever was in my life. My case was so strange to the people in this section, my friends are astonished at the effects of the Liniment. You are at liberty to make this public if you desire to do so.

With much respect, SAMUEL A. DAVIS.

Lumbago, Salt Rheum, Tetter, Eruptions, Ringworms and Piles, are cured in a very short time by applying the Mustang Liniment according to directions given with the bottles.

In Sores and Caked Breasts, Sore Nipples, Piles, Eruptions, and Corns on the feet, are easily cured by a thorough application of the Mustang Liniment for those complaints.

☞ The following is but a small synopsis of what the Mustang Liniment will cure:

One bottle, 50 cent size, is warranted to cure the Scald Head.

One to two 50 cent bottles will cure the Salt Rheum,

One 25 cent bottle will cure the Caked Breast.

One small bottle is a certain cure for Sore Nipples.

One 50 cent bottle will cure Ringworm, even the worst case of Rheumatism in any form, and one 50 cent bottle will cure any case of recent standing.

One to two small bottles will cure the Neuralgia.

One bottle, 50 cent size, will cure the severest Burn or Scald.

One dollar bottle will cure the Spinal Disease.

One small bottle will cure the Piles in any stage of the disease.

One to two 50 cent bottles will cure the Scrofula, in any case.

One small bottle will cure Chapped Hands.

Two to four bottles, 50 cent size, used in connection with the recipe for "Old Sores," accompanying each bottle, is warranted to cure the severest cases of Old Sores, ulcerations of the mouth, sore on the legs or shins, that have resisted all other treatment.

One dollar bottle will cure the Ring Bone, Splint or Scratches in horses.

One dollar bottle will effect a permanent cure of the Spavin, Sweeny or Poll Evil.

One 50 cent to a dollar bottle will cure all cases of Galls, Chafes, Fresh Cuts and Lameness.

A beneficial effect is always experienced from the first application and a perfect cure is warranted when used according to directions.

CURE OF SALT RHEUM

OF TEN YEARS STANDING.

A lady residing near Lynn, Osage Co., Mo., had the Salt Rheum on her head during the last 10 years, causing pain and torment. She was also assumed a very dangerous character, spreading all over her head and face in the most frightful manner, so much so that her life was despaired of. She tried every remedy her friends and physicians could recommend to her, but all to no effect. One of her neighbors recommended the Mustang Liniment as the last resort. Accordingly a bottle was procured and used as directed; the result was an immediate relief, and a cure was made in four weeks after commencing the use of the Liniment. Here are her own words to us a few days since:

"I never expected to see so many pleasant and happy days as I have since I used your renowned Mustang Liniment. If the prayers of an afflicted woman can benefit you, then I fondly bestow mine. I used about four bottles of your Liniment and am now as well as I could wish for."

PRICES.

It is put up in bottles of three sizes, and retail at 25 cents 50 cents and $1 per bottle. The $1 size contains more than double the quantity of the 50 cent size. Those who purchase by the hundred or thousand will be supplied at a liberal discount.

☞ Remember the 50 cent and $1 bottles are much the cheapest. ☞ Ask for A. G. BRAGG & CO'S. MEXICAN MUSTANG LINIMENT. ap22

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEIAN, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the City of New York, and vicinity for a few months past, ever known to man.—It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. (See certificates in hands of Agents.)

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20th, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together, my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeanic Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffering for want of breath. In less than ten minutes from the time I applied the Inhaler to my mouth, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the most pleasing and beneficial effects. Now in a perfect health. Before using the Inhaling Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life.—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler
